TELEGRAMM

1. The succeeded actions carried out by the Combined Forces of APODETI UDT KOTA AND TRABALHISTA against the cities of Baukau and Dili means de facto that we do control now the totality of the East Timor territory.

2. Owing to the complete uncapable way of the Portuguese Government to provide conditions to allow a free expression of the people of East Timor concerning the decolonisation process we have decided to require officially to the Indonesian Government the supply of military forces in such a way that we can restore order and peace so we may obtain conditions to the realization of the decolonization process through a referendum.

Atabae, December 7, 1975
